

LABOR SHED FOR CITY IS ASSURED

HOME RULE PETITION PRESENTED

Major Step Before People Of Cameron

Another major step toward the progress of the city was placed before the City Council Tuesday night, June 19 for their consideration and study.

Milton Schiller, former alderman and one of the leading civic leaders of the city presented a petition to the city officials.

The petition read; for the City Council, the Honorable Body to provide by ordinance for the submission of a called election of the question, "shall a commission be chosen to frame a new charter." This petition is presented in pursuance of the provisions of Article 1165, Vernon's Civil Statutes of Texas.

The City of Cameron is one of six Texas cities its size that still operates under the General Law of City Government. Cameron is 105 years old and still has this antiquated type of city government.

The City limits of Cameron were surveyed out in 1846 and has not been extended only once and that was in 1947 when it was requested by a number of citizens in the Country Club Addition.

The city operates under the General Law and therefore its power and authorities are restricted.

The Cameron Planning Board under the leadership of the members realized the advantages of a Home Rule Charter and urged the Mayor, with the council's consent, the immediate appointment in 1944 of a Charter Commission of 15 members as provided by law and that the Commission be instructed to write and submit a proposed Charter for Home Rule in the City of Cameron and that the same be submitted for the vote of the people at the earliest possible date.

Members of the Board at that particular time were Sam McDermott, August Horstmann, Bob Terry, Roy Griffith and E. O. Schiller Sr.

In the adoption of a Home Rule Charter, the city may adopt any form of government it desires. General law cities are definitely tied down to the provisions of the old laws while Home Rule Charter, generally speaking, can do anything which is provided in the City Charter so long as the charter is not in conflict with the laws of the state and constitution.

As a comparison of how antiquated our present system is, attention is called to the comment by the Texas League of Municipalities:

Home Rule would give Cameron means by which to annex territory and to extend city limits; to enact and enforce sanitary regulations; a police department; fixing of tax rates at a figure less than the present level as a result of having reached a population of 5000; it would enable the city to overcome limitations of authority with reference to the acquiring of property and also the disposition and many other restrictions now imposed by general law authority.

Charter can be changed each two years and thereby meeting changing conditions. This is one of the most essential needs of the city since any city under the Home Rule Charter will develop and progress greatly.

The Rev. B. R. Walker of Battetown Baptist Church, and Rev. Caperton of Cameron were the officiating ministers. Burial was made at the I. O. O. F. cemetery.

Mr. Williams and his wife were visiting with relatives in Dallas while their son was on leave from the U. S. Air Corps before leaving the state. The group had been on an outing Saturday and he had not complained of feeling ill, but was stricken with a heart attack at 4:15 Sunday morning.

It was here that he grew to young manhood and later went to Dallas where he became an employee of the Padgett Brothers Company, remaining with the establishment for thirty-three years.

City Gets 2 Per Cent Credit On Key Rate

The city councilmen enacted another ordinance at a recent meeting that will entitle the city of Cameron to a two per cent credit in the insurance key rate.

The Board of Aldermen and the Mayor unanimously agreed and passed the following ordinance:

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF CAMERON, TEXAS:

1. That the City of Cameron, Texas, hereby offers a reward of One Hundred Dollars (\$100.00) for the arrest and conviction of any person, or persons, found guilty of committing the crime of arson within the corporate limits of the City of Cameron, Texas. The reward hereby offered is a standing offer, and shall be paid out of the General fund of the said city of Cameron.

2. That the fact that the City of Cameron has heretofore failed to keep a valid, standing offer of a reward of at least One Hundred Dollars for the arrest and conviction of any person, or persons, found guilty of committing the crime of arson within the corporate limits of the City of Cameron, has resulted in the penalizing of all property owners carrying insurance against loss by fire, and that offering of said reward will entitle the City of Cameron to a two-percent credit in the insurance key-rate for said City, creates an emergency and an imperative local public necessity that the rule requiring ordinances to be read at three different meetings be suspended, and that this ordinance take effect immediately after its passage and approval by the Mayor, and it is so ordained.

Last Rites Held For Former Milam Co. Man

Funeral services for Joe N. Luce, 89, was held at San Angelo from the Johnson's Funeral Home Chapel with Rev. Grady I. Peters conducting the service at 3:30 p. m. Monday afternoon.

Mr. Luce, a retired farmer and rancher died at 2:30 o'clock Saturday afternoon in a San Angelo Hospital.

Mr. Luce was born in Hillsborough County and came to Cameron with his parents when a small boy. He was a farmer and rancher here for many years before moving to San Angelo in 1920. Since moving to San Angelo he ranched at Miles and Mereta. The last years he spent in retirement at San Angelo.

Mr. Luce had made many friends while living in Cameron and who were sorrowed to learn of his death.

Survivors are three sons, Joe R. Luce of Cameron, Floyd and D. L. Luce of San Angelo, two daughters, Mrs. Dewey Markum of San Angelo and Mrs. Frank Marino of New York, one sister, Mrs. George Small of Cameron, eight grandchildren and two great grandchildren.

Burial was made in the San Angelo cemetery by the side of his wife who passed away in 1946.

Many Truck Loads Are Being Shipped

The choice Milam County watermelons are arriving on the market. Several farmers over the county have begun pulling melons and from all indications a good crop will be harvested. The dry weather has been beneficial to the melons during the past three weeks since the rain but it was reported that some moisture is needed now to make the small melons mature properly.

Jesse Kirk, Jr. local trucker and farmer, has 200 acres of watermelons near Milano and Gause, will ship several car loads the early part of the week to northern markets. Some of the large trucks will hold around 25 to 30 thousand pounds.

Mr. Kirk said he plans to load 15 trucks on Monday, June 25 and that the melons are of a good quality and were bringing around 2 cents at the patch.

Besides his two hundred acres, Mr. Kirk is also buying melons from the many farmers over the county. He said the price will be around 2 cents per pound for at least ten days.

Jim Belt, well known farmer of the Milano Community has several hundred acres in melons this season and plans to begin marketing melons on a large scale within a day. He sold several loads last week.

The southern and southeastern parts of Milam County are noted over the entire nation for raising the best melons both in taste and quality.

The Milam County melons are favorite on the Eastern markets and have been for the past two or three decades.

The insect festation this season has been light in the County. Part of this was due to the fact that farmers have taken advantage of insect control program. They are realizing the advantages of the early control methods.

With the spring drouth and late freeze in the Valley, the central Texas farmers have had a considerable advantage over the valley producers and have placed their produce on the markets earlier. Some farmers are still engaged in their tomato crop and since the market dropped to such a low level some farmers have indicated that it is not a profitable proposition to pay for high picking wages and not get any more for the tomatoes.

With all the edible commodities at such a high price level, it was hoped by all tomato producers this season that tomatoes would remain at a good price through the entire season. The buyers have said that due to the bumper crop, the market was forced to drop, "The same old story."

Milam County farmers will have to organize a county farmers co-op similar to the Co-op in Colorado and other States if they want to get the full price their produce should bring.

Well Known Man Dies Here Friday

Herman McKinney, 65, died at his home suddenly, on East 3rd street Friday afternoon, June 22.

He was a native of Milam County, born in the Davilla Community and had been a resident of this county all of his life. He was well known in the Davilla Community where he was reared and engaged in farming for many years.

He had made his home here for several years and was well known in the city of Cameron, and was a valued employee of the Muse Motor Company where he has worked for the past seven years as a mechanic. He was the father of Mrs. Namon Press. (Turn To Page Ten)

Council Agrees To Assist Farmers

The City Council met in a special called meeting by Mayor A. N. Green, Tuesday morning, June 26.

Several members of the Chamber of Commerce met with the council and members of the Milam County Farm Bureau were scheduled to meet with the group but were unable to attend.

Mayor Green called the session to order and called on Bill Arthur, president of the Chamber of Commerce, to explain the purpose of the meeting.

Mr. Arthur told the group that a committee made up of members of the Chamber of Commerce and a committee of Farm Bureau members had recently met and discussed the possibility of erecting a migratory labor shed in Cameron. He said the Chamber had agreed to put up \$500 along with \$500 from the Farm Bureau for the building of such a project.

Mr. Arthur discussed the vital necessity of having such a shed in this locality since this is a major agricultural area, and told of the immediate need of the project. He called on E. A. Perrin, also representing the Chamber of Commerce, to tell in detail about the proposed project.

Mr. Perrin said that the Chamber had been working on a plan of this kind for four years and pointed out how essential it is becoming for the city to erect something satisfactory in the way of an adequate shed with facilities to take care of the migratory laborers that help harvest the crops every year. He ask that the council pass a resolution or draw up proper papers for a contract that would greatly expedite plans on the proposal.

Alderman L. Van Perkins said that the city council would cooperate with the Chamber of Commerce and the Farm Bureau in every respect concerning the matter.

Alderman Johnny Andres made the motion that the council draw up a five year contract with the chamber to give necessary land for the building of a shed for a consideration of \$1 a year. The motion carried unanimously.

Mr. Perkins also told the group that water mains and sewage facilities be extended to the location necessary for the project at the city's expense and the council would cooperate with the citizens in that area of the town in making the necessary survey.

It was understood that a large number of Farm Bureau members would help in the building of the structure, as it will take a considerable amount of labor to erect the shed and work since the cotton harvest will begin in this area in six weeks. If the dry weather prevails, it may begin the latter part of July as has been the case in previous years.

Many of the surrounding cities have labor shed adequate to take care of their migratory laborers.

Fire Damages New Home At Maysfield

The new ranch style home at Maysfield belonging to Mr. and Mrs. Sherwood Cobb was damaged by fire while the family were away from home the past Wednesday.

The Blackwell brothers who have a large farm in that community were returning to Cameron and saw the blaze they rushed to a near by store and with the help of neighbors the blaze was soon under control. There was no close telephone so that the local fire department could not be contacted.

It was reported that the damage estimated at several hundred dollars. The fire was believed to have caught from a defect in the hot water heater.

Several years ago another home belonging to Mr. and Mrs. Cobb caught fire and burned near Branchville and they lost almost all their furnishings.

Gene Kennedy and children of Bryan were guests in the home of Mr. and Mrs. Frank Richards here Sunday.

Mrs. Gene Smith, accompanied by her brother and wife, Mr. and Mrs. Monroe Pevehouse of Lubbock attended the wedding of Mr. and Mrs. Pevehouse's son, Byron Cone Pevehouse to Miss Maxine Elizabeth Smith of Mobile, Alabama. The wedding vows were exchanged in a church ceremony, at Southwestern Bellaire Baptist Church. Other attending were Mr. and Mrs. Earl Pevehouse of San Antonio and Mr. and Mrs. Monroe Smith of Houston.

From where I sit ... by Joe Marsh

The Cow That Can't "Run Dry"

Sandy Johnson showed me his Jersey cows last week. It was a warm day and they were all under the trees near a watering trough.

And darned if one cow wasn't pumping water into the trough! It's a fact—she'd raise the pump handle with her nose, and use her throat to push it down again.

"That's Mabel," Sandy explained as she moved away. "Sometimes they drink that trough dry, and she's learned how to fill it again. But she doesn't know her own strength—turns the place into a swamp if we don't watch her."

From where I sit, Mabel isn't the only one who sometimes doesn't know where to stop. For instance, people often carry personal opinions too far—like the person who wants everyone to accept his choice of political parties, or ball-players... or beverages. I prefer a glass of beer with my meals. I know that a lot of other people prefer milk. But nobody ought to insist on "herding" others around to his way of thinking.

Is new "Pilsenized" Southern Select Beer really a better beer? Well, here's what E. E. Schwarz, grocer, of Round Top, Texas, has to say:

Lions Report On State Convention Held Recently In Waco

Savage Fighting On Battle Fronts Today

(From The Daily)

Tokyo, Monday, June 25—Communist forces slammed five savage attacks against the Allies in East Central Korea on the first anniversary of the war but furious Allied resistance drove the enemy back.

The attacks supported by heavy mortar fire, were believed at first to be part of a communist anniversary drive, but the action was relatively light in other sections of the front with no general offensive indicated.

The enemy began frontwide attacks that drove U. S. troops from key hills in the iron triangle of the west central front and almost trapped a big task force just to the west. Today's five attacks, north northeast of Inje, followed five attacks in the same general area yesterday.

The Communist commanders in the line showed no sign of having heard about the Kremlin's peace feeler. Instead they fought on a scale unequalled since they checked their great Spring retreat.

Allied forces beat off five vigorous attacks in East-Central Korea, where

the line is within rifle shot of new positions the Communists had been defending fiercely.

One Red attack was along the southern rim of the so-called "punch-bowl," a natural bowl a few miles inland from the Japan Sea. Another battle was fought on the western rim of the bowl, where South Korean troops tried to drive the reds from a peak and were beaten back.

Mr. and Mrs. Ernest Dake of Baytown are visiting in the home of Mr. and Mrs. H. L. Dake here this week. They have been visiting in Grand Prairie where they were guests of Mr. and Mrs. Robert Lee Dake and also visited Mr. and Mrs. Bob Basker and family at Lott. Mr. Dake holds a position with the Dow Chemical plant at Pasadena.

Robert R. Nelson, State Field Representative and Mr. Roy Tisdale, Land Appraiser for Farmers Home Administration Belton District Office were visitors in the local FHA Office Tuesday.

Where Have You Been all its Life?

THIS ad is addressed to the fellow known as "the man on the street."

From that vantage point, you must have noticed that a lot of folks are driving 1951 Buicks.

You must have noted that you can spot one of these beauties—by its sparkling forefront—its gleaming fender ports—(three for the SPECIAL and SUPER, four for the ROADMASTER)—and by its fluent grace of lines and contours.

You've probably noticed, also, that these Buicks give a good account of themselves in traffic—ease to a gentle stop—get away to a nimble start when the light says, "Go."

You may even have noticed that these cars have a level-gaited stride that traces, as we've said before, to the fact that each wheel rides beneath its own coil spring.

But what we'd like to know is—when are you going to try one?

It's about time you climbed in the driver's seat.

It's about time that you sensed for yourself the thrill that comes from feeling your shoulders sink back in the cushions, when your toe gives the gas treadle a gentle nudge.

It's about time for you to be on the receiving end of those admiring glances which are the due of folks smart enough to pick the smart buy of the year.

What's holding you back? It can't be prices—for as you can quickly discover for yourself, you can own a SPECIAL for less than the price of some sixes—and SUPERS or ROADMASTERS are just as smart a buy in their fields.

So why not end the suspense? The welcome mat is out at our showrooms. We hope to greet you soon.

Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Series.

NO OTHER CAR PROVIDES ALL THIS:

- DYNAFLOW DRIVE—saves strain on driver and car, cuts servicing costs
- FIREBALL ENGINE—high-compression, valve-in-head—gets more miles from every tank of fuel
- PUSH-BAR FOREFRONT—combines smart style and unsurpassed protection

- TORQUE-TUBE DRIVE—seals the chassis, steadies ride, improves driving control
- 4-WHEEL COIL SPRINGING—cushions and levels the ride, saves servicing costs
- DUAL VENTILATION—outside air fed separately to right or left of front compartment
- SELF-ENERGIZING BRAKES—hydraulic—multiply pedal-pressure five times at brake drum
- DREAMLINE STYLING—tapered, car-length fenders, gleaming sweepers on most models

Jacquelyn Linke of the Thorndale 4-H Club was chosen as 1951 Gold Star Girl. Jacquelyn was chosen on her accomplishment as a leader, completion of 4-H goals and records. This is her fourth year as a 4-H girl, with interest high to continue 4-H activities for several years.

Those girls running a close second to Jacquelyn were: Florence and Zillie Swany of Burlington Club, Bernice Fischer of Buckholts club and Joyce Hensel of the Burlington club. All these girls had very fine records of accomplishments too.

The Milam County 4-H Club girls held their annual County Encampment on June 19-20. Fifty five girls and adult leaders met at Coffields Ranch for two days. The group enjoyed the fellowship of singing, playing, working, eating and sleeping together out in the wide-open spaces. All six of the 4-H clubs were represented.

How much is your garden worth. Some studies conducted by some of our popular magazines show that from \$5.00 to \$10.00 spent for seeds, insecticides and plant food pays off in vegetables worth from \$90.00 to \$134.00. With a little assistance on your part, the garden can still pay off even though the weather is hot. How? Replant the area from which Irish potatoes and onions have been harvested. Such vegetables as black eyed, purple hull, cream peas or sweet corn. Other heat-tolerant plants are egg plant, bell pepper, and New Zealand spinach. Might try some Porter, Summer Prolific and Danmark tomatoes for table use on through the summer and fall.

Sarah McCalla Chapter Observes Flag Day With Unusual Program

After the Ritual led by the Regent Mrs. B. J. Baskin, The Pledge of Allegiance to the flag was led by Mrs. Jeff Kemp.

The Regent stressed loyalty to the Flag and asked that each one display the Flag on Patriotic days.

Mrs. Kemp read an article taken from the May 1951 DAR Magazine, an address by Franklin K. Lane delivered before the officers and 5000 employees of the U. S. Department of the Interior of which Department he was secretary at the time. He was later a member of the Woodrow Wilson cabinet. This article was entitled "A Tribute to Old Glory."

An article establishing the author of The Pledge of Allegiance to the American Flag was read. A prize had been offered in the Cherryvale Kansas Schools to the pupil who wrote the best Pledge to the Flag.

A young boy named Frank Bellamy won the prize and when President McKinley later asked that a new Pledge of Allegiance be written, of the hundreds submitted, the honor again fell to Frank Bellamy of Cherryvale, Kansas. When the Spanish American War broke out Frank was a young man. He heard the call and enlisted under the flag whose ideals inspired him to write his Pledge of Allegiance. This was given by Mrs. Bertha Brewer.

WHAT GOOD IS AN
Unregistered Pedigree?

Your Tractor Serial Number is its Register of Pedigree

You know what happens to the value of pedigreed stock that isn't registered. Then what about a tractor without a serial number?

its warranty period. This is your protection... you are not left "high and dry."

Tractors produced by present day manufacturers leave the plants of their origin with serial numbers that are intended to identify them for life.

That serial number helps establish the tractor's value, whether new or used. As a general practice banks and finance companies want a tractor's serial number before they will lend money on it and insurance companies want it before they will issue a policy.

A serial number helps the manufacturer determine if a tractor is within

The tractor's serial number is a guide in getting the right replacement parts quickly and without mistakes. If your tractor is stolen, the serial number is the best means of tracing and identifying it.

From the day you buy your tractor until the day you sell or trade it in, its serial number is your protection and guarantee. Without it, your investment has no assured value.

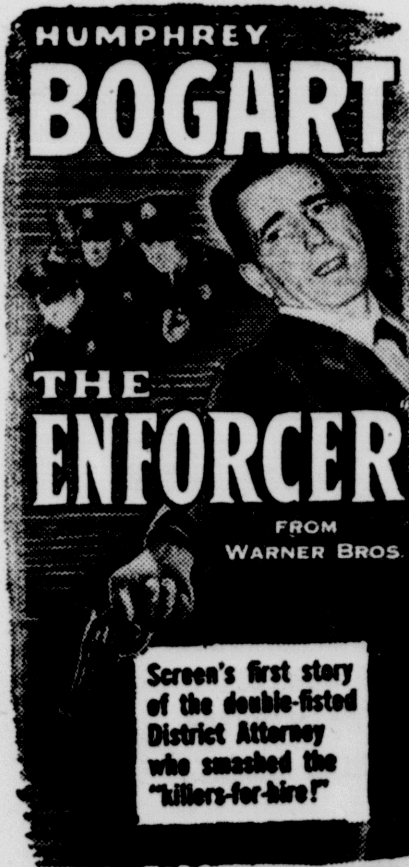

It will pay you to make sure your new tractor has a pedigree... a serial number. We hope it will be a Ford Tractor.

Quake Strikes In Panhandle Section

AMARILLO, June 20— A junior earthquake which lasted about three minutes shook the Texas Panhandle and South Plains regions today, causing excitement but not damage or injuries.

The dish-rattler put buildings to jumping in Amarillo, Dalhart, Borger, Plainview, Lubbock, Littlefield, Anson, Vega, Friona, Hereford and points in between.

Occupants of quaking buildings in Amarillo estimated the tremor continued from one to three minutes. Floors heaved, framework creaked and windows rattled. Several housewives told newspaper men they fled from their homes when the china started dancing. Newspapers in Amarillo, Lubbock and Plainview were flooded by callers reporting the vibrations.

HOW can I keep angle worms alive?

EVERY fisherman who finds he has a surplus of worms at the end of a fishin' day asks this question. And the solution of the problem is very simple. Get a box about a foot square and 6 inches deep. Fill it with a mixture of rice hulls, corn meal and black earth or clay. Mix the ingredients together well. Then wet them until the mixture is damp all the way through. Put your extra worms in there. Be sure to add some water from time to time. Your worms will not only keep, but will get fat and will also reproduce.

YOU might use a piece of window screen to cover the box. If you cannot get rice hulls, you can get fine ashes and mix with the earth and the corn meal. The corn meal serves as food for the worms.

OUT OF THE BAIT BOX

I wonder what the biggest catfish ever caught in Texas weighed? For the Grand Prize State-Wide Charity Fishin' Contest, a record of 87 pounds was set for anglers to shoot at; but I'm sure larger ones than that have been taken. Anyway, if you catch a big catfish on hook and line be sure to enter it in the contest and win \$100 for your pet charity. All fish entered in the contest must be caught in Texas waters.

DELIGHTFUL PEACH DRINK

A SULTRY summer afternoon, you have no will to move about, and guests are expected. There's no need to get in a flurry over refreshments. Nobody wants heavy food and nothing will be more appreciated than a delicious cold drink with good cookies to nibble on. To enhance the appearance of the drinks you serve, be sure your glasses are crystal clear, and of an attractive design. It is important to use plenty of ice cubes as a lukewarm drink has no appeal. If you are serving bottled fruit beverages, sparkling water or ginger ale, it should be thoroughly chilled before using. Fruit juices, too, should be chilled before making drinks.

Battery "C" Takes Part In Big Review

by Lloyd Albertson

Battery C, 649th Anti-Aircraft Battalion finished its first week of National Guard summer field training here at Camp Polk by taking part in the huge mounted parade in review before a reviewing stand filled with high ranking military and civilian dignitaries.

It was a spectacular show as everything from jeeps to rumbling tanks, running two abreast, swung by for an hour or more, the enlisted men and officers doing "Eyes left" or saluting as they passed the reviewing stand.

After the big parade the Guardsmen, unless on some detail, had the rest of the week end off. Many of them visited Leesville, Alexandria, Lake Charles and other nearby Louisiana cities. Others remained in Camp to go to the PX, Service Club, movies or to take a dip in one of the Camp's swimming pools to beat the Louisiana heat.

The Guardsmen's training schedule was brightened earlier in the week when on Thursday afternoon the Division went out into the field to watch a demonstration of planes dropping bombs, both conventional and the new jelly type used in Korea. One of the jelly bombs failed to ignite, but demolished the target when it struck it. The others sent flames leaping high into the air when they hit. And the conventional bombs exploded with a roar that shook the ground. It was a spectacular show which even Camp Polk's unpredictable weather couldn't dampen when a sudden rain drenched and chilled the Guardsmen just before it began. The Guardsmen's experience has prompted the advice: "Where ever you go, take your raincoat along; you never can tell what this weather will do."

Battery C's second week of training began early on Monday morning when it moved out into the field with the rest of the Division for a 3½ days stay. The schedule called for firing at ground targets by 40 mm guns and 50 cal. machine guns on the artillery range, and also for the execution of a problem in infiltration tactics by an "aggressor" force.

The Guardsmen will return to base Camp on Thursday, turn in their equipment and receive their pay for

two weeks training on Friday. Saturday the detachments making the trip by truck, will start for home, and the others will follow by train on Sunday. All Guardsmen are scheduled to reach home by Sunday afternoon.

The expanded soil testing service of the A. & M. College can handle and analysis up to 100 soil samples per day. The charge for the analysis is small but the recommendations from the laboratory may save farmers, ranchers or gardeners and others much expensive fertilizer. Low yields are not always caused by low soil fertility.

A Tribute--

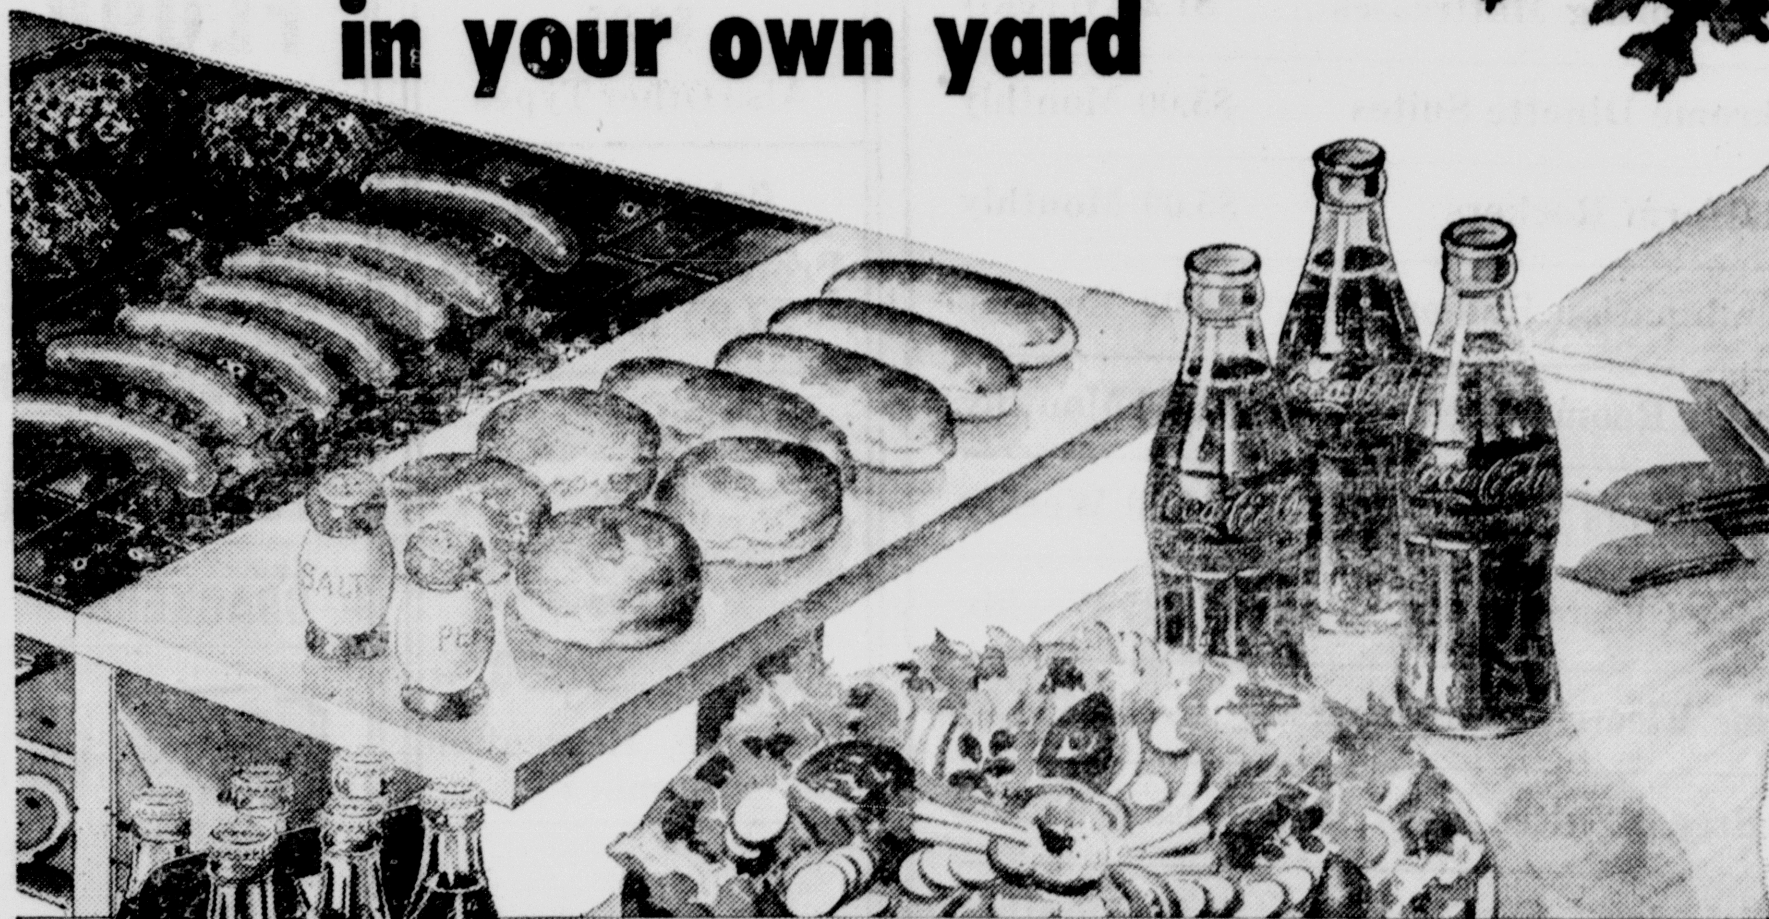

To Our Womens Clubs

Those groups of our local women who have organized themselves into Clubs, deserve the unstinted commendation of all of us! There are bridge clubs. There are self-improvement clubs whose charitable work among the needy exemplifies the finest traits of American Womanhood. Most of these are home women, women with families and all the cares of home management. Yet they find time for richly-deserved recreation, as well as charitable activities. They are making the most of their busy lives. . . . and we heartily applaud their feminine proclivities. Let's give them generous support whenever they request it!

We Salute Our Town!

Educational Film Is Shown to Lions and Rotary Clubs Here

Sgt. Albert S. Cobb of Temple presented the program at the Lions luncheon, Tuesday, June 26.

Sgt. Cobb presented a film on the "atomic bomb" and the "civilian defense program." The pictures showed the actual bombing and what takes place after the explosion.

Films of this type have been shown to civic clubs and organizations over the entire country as they are very educational from many standpoints and familiarize people of what is necessary in case of an atomic attack.

Albert Matula presented the same film to the Rotary Club Wednesday, June 27.

Bitter Battles Rage On Frontal Attacks

TOKYO, Tuesday, June 26—Red Forces opened a new attack early Tuesday near Central Korea's "iron triangle" while talk stirred of a possible ceasefire.

Communist troops struck after midnight and the battle was still raging Tuesday morning.

Allied planes ripped at the triangle area Monday, killing more than 120 Reds.

Lt. Gen James A. Van Fleet, 8th Army Commander, was informed Tuesday that the Red China Radio voiced a qualified endorsement of the suggestion by Russia's U. N. delegate Jacob Malik, for a cease fire at the 39th parallel, Van Fleet reacted by repeating what he said Sunday—"business as usual."

And the "business" was bloody and bitter.

Tuesday's mid-morning communique of the 8th Army said an unknown number of Reds attacked at five minutes after midnight east of Kumhwa. That Allied won southeast anchor of the "iron triangle" is about 20 miles north of parallel 38 in Central Korea.

The assault was made in the same sector where Allied troops were ousted earlier from ridge positions defending Kumsong. That Communist buildup point is 12 miles northeast of Kumhwa.

The communique said the new attack still was in progress two hours later, the last report on it.

In western Korea, Allied troops broke contact and withdrew Monday night after a day of bayonet fighting.
